SUMMARY

Computer Science undergraduate with a strong foundation in full-stack web development and Data Structures & Algorithms. Skilled in HTML, CSS, JavaScript, React, Next.js, Node.js, Express.js, and MongoDB, with experience building responsive web applications and personal projects. Proficient with Git, GitHub, and Chrome DevTools, with a strong focus on writing clean, maintainable code and building scalable web applications.

TECHNICAL SKILLS

- **Languages:** JavaScript (ES6+)
- **Frontend:** HTML5, CSS3, React.js, Next.js, Tailwind CSS
- **Backend:** Node.js, Express.js, REST APIs
- **Database:** MongoDB
- **Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (OOP), Problem Solving
- **Developer Tools:** Git, GitHub, VS Code, Chrome DevTools, npm, Vite

EDUCATION

- **B.Tech in Computer Science & Engineering (AI & ML)**
 - Adamas University, Kolkata (2023 – 2027)
- **JEE Preparation (Drop Year)**
 - Prepared full-time for the Joint Entrance Examination (2022–2023)
- **Class 12th – CBSE Board**
 - Year of Completion: 2022
- **Class 10th – CBSE Board**
 - Year of Completion: 2020
 -

CERTIFICATIONS & ACHIEVEMENTS

- **Diploma in Computer Programming and Application (DCPA) – IO Tech Education (2021).**
- **Qualified HCL TechBee Entrance Examination (2022)**

LANGUAGES

- English – Professional Working Proficiency
- Hindi – Native Proficiency
- Bengali – Basic Proficiency

PROJECTS

○ Task Scheduler

Tech Stack: React.js, Vite, Tailwind CSS, Local Storage

- Developed a responsive task management application using React.js and Vite.
- Implemented task creation, editing, deletion, and completion tracking.
- Integrated Local Storage to persist user data across browser sessions.
- Designed a clean, responsive user interface using Tailwind CSS.

GitHub: <https://github.com/Pratap531/Task-Scheduler>

○ X (Twitter) Clone

Tech Stack: HTML5, Tailwind CSS

- Developed a responsive clone of the X (Twitter) user interface using HTML5 and Tailwind CSS.
- Recreated the homepage layout with responsive design principles and modern UI components.
- Utilized Tailwind CSS utility classes to build reusable and maintainable layouts.
- Optimized the application for desktop, tablet, and mobile devices.

GitHub: <https://github.com/Pratap531/X-Clone>

Live Demo: <https://pratapindustries.online/>

○ Netflix Clone

Tech Stack: HTML5, CSS3

- Developed a responsive Netflix landing page using semantic HTML5 and modern CSS3.
- Implemented Flexbox, media queries, and modern CSS layout techniques to ensure responsiveness.
- Recreated the Netflix-inspired interface with visually consistent sections and interactive elements.
- Performed debugging and responsive testing using Chrome DevTools.
